Watch out for the darkness.

It's smothering.

Don't stop their suffering, but

don't be indifferent to their pain.

Watch out for the darkness.

It comes coldly and

when you perceive

your room will be cold.

Don't let your life get cold.

Don't let,

Don't let,

Stay awake.

Warm your life with passion.

Love the nature.

Love the gods.

Love your life with fire.

Watch out for the darkness.

There's no time to arrive

but it will come,

always alone.

Don't put out the flame of your heart.

Fill it up with tenderness.

Warm him up with fantasies.

Warm him up with passions.

Don't let the darkness erode you.

May you have passions.

Let this be your fuel.

Let the fire burn.
